The Family Advocacy and Support Tool (FAST) is the family version of the Child and Adolescent Needs and Strengths (CANS) family of planning and outcome management tools. A large number of individuals have contributed to the design and development of the FAST. It is an open domain tool, free for anyone to use. We recommend training and certification to ensure its proper and reliable use. For more information, please contact:

FAMILY ASSESSMENT

1. THE FAMILY TOGETHER

This section focuses on the family system. The first step is to define who makes up the family. Generally it is a household but sometimes two households in which the children spend considerable amounts of time could be considered (e.g. divorced parents with 50:50 visitation).

1. Parental/Caregiver Collaboration

This item refers to the relationship between parents (or other primary caregivers) with regard to working together in child rearing activities.

- 0 Adaptive collaboration. Parents usually work together regarding issues of the development and well being of the children. They are able to negotiate disagreements related to their children.
- 1 Mostly adaptive collaboration. Generally good parental collaboration with occasional difficulties negotiating miscommunications or misunderstanding regarding issues of the development and well being of the children.
- 2 Limited adaptive collaboration. Moderate problems of communication and collaboration between two or more adult caregivers with regard to issues of the development and well being of the youth.
- 3 Significant difficulties with collaboration. Minimal collaboration and destructive or sabotaging communication among any parents regarding issues related to the development and well being of the youth.
- NA Not applicable

2. Relationships among Siblings

This item refers to how the children in the family (brothers and sisters as well as step and half siblings) get along with each other.

- 0 Adaptive relationships. Siblings generally get along well. Occasional fights or conflicts between them occur, but are quickly resolved.
- 1 Mostly adaptive relationships. Siblings generally get along, however, when fights or conflicts arise there is some difficulty in resolving them.
- 2 Limited adaptive relationships. Siblings often do not get along. They generally attempt to resolve their fights or conflicts but have limited success in doing so.
- 3 Significant difficulties with relationships. Siblings do not get along. The relationships are marked by detachment or active, continuing conflicts, and may include physical violence.
- N/A Not applicable

3. Extended Family Relationships

This item refers to the family's relationship with other relatives (not necessarily a blood relation) who do not currently live with the family but do live in the same relative geographic area.

- 0 Adaptive relationships. Extended family members play a central role in the functioning and well being of the family. They have predominately positive relationships with members of the extended family and conflicts are resolved quickly.
- 1 Mostly adaptive relationships. Extended family members play a supportive role in family functioning. They generally have positive relationships with members of the extended family. Conflicts may linger but eventually are resolved.

- 2 Limited adaptive relationships. Extended family members are marginally involved in the functioning and well being of the family. They have generally strained or absent relationships with extended family members.
- 3 Significant difficulties with relationships. Family is not in contact or estranged from extended family members. They have negative relationships with continuing conflicts.
- N/A Not applicable

4. Family Conflict

This item refers to how much fighting occurs between family members. Domestic violence refers to physical fighting in which family members might get hurt (also refers to the same geographic area, not limited to household).

- 0 Minimal conflict. Family gets along well and negotiates disagreements appropriately.
- 1 Some Conflict. Family generally gets along fairly well but when conflicts arise resolution is difficult.
- 2 Significant conflict. Family is generally argumentative and conflict is a fairly constant theme in family communications.
- 3 Domestic violence. Threat or occurrence of physical, verbal or emotional altercations. Family with a current restraining order against one member would be rated here.

5. Family Communication

This item refers to the ability of all family members to talk to each other about their thoughts and feelings. It should only be about communication within the family (does not have to be in the same home but in the same geographic area).

- 0 Adaptive communication. Family members generally are able to directly communicate important information among each other. Family members are able to understand each other's feelings and needs.
- 1 Mostly adaptive communication. Family members can communicate important information among each other. Some individuals or certain topics are excluded from direct communication. Mutual understanding is inconsistent.
- 2 Limited adaptive communication. Family members generally are unable to directly communicate important information among each other. Family members have difficulties understanding each other's feelings and needs.
- 3 Significant difficulties with communication. Family members communicate mostly through indirect, covert means or there is no sharing of important information at all. They are not able to understand each other's feelings or needs.

6. Family Role Appropriateness

Boundaries refer to the ability of family members to separate themselves as individuals and appropriately separate communication with various family members. Hierarchies refer to the organization of decision-making authority in the family.

- 0 Adaptive boundaries. Family has strong appropriate boundaries among members. Clear inter-generational hierarchies are maintained.
- 1 Mostly adaptive boundaries. Family has generally appropriate boundaries and hierarchies. May experience some minor blurring of roles.
- 2 Limited adaptive boundaries. Family has difficulty maintaining appropriate boundaries and/or hierarchies. Some significant role problems exist.

- 3 Significant difficulties with boundaries. Family has significant problems with establishing and maintaining reasonable boundaries and hierarchies. Significant role confusion or reversals may exist.

7. Family Safety

This item refers to the degree to which family members are safe from being physically injured in the home.

- 0 No safety concern. Family provides a safe home environment for all family members.
- 1 Mild safety concern. Family home environment presents some mild possibility of neglect or exposure to undesirable influences (e.g., alcohol/drug abuse, gang membership of family members) but no immediate risk is present.
- 2 Moderate safety concern. Family home environment presents moderate possibility to family members including abuse and neglect or exposure to individuals who could harm the youth.
- 3 Severe safety concern. Family home environment presents a clear and immediate probability of harm to family members. Individuals in the environment present immediate risk of significant physical harm.

8. Financial Resources

This item refers to the income and other sources of money available to family members (particularly caregivers) that can be used to address family needs; please include government assistance.

- 0 No difficulties. Family has financial resources necessary to meet needs.
- 1 Mild difficulties. Family has financial resources necessary to meet most needs; however, some limitations exist.
- 2 Moderate difficulties. Family has financial difficulties that limit their ability to meet significant family needs.
- 3 Significant difficulties. Family experiencing financial hardship, poverty.

9. Residential Stability

This item refers to the stability of the family's housing. This does not refer to the risk of placement outside of the family home for any member of the family.

- 0 Family has stable housing for the foreseeable future.
- 1 Family having some difficulties maintaining housing due to things such as difficulty paying rent or utilities or conflict with a landlord.
- 2 Family has had to move in the past six months due to housing difficulties.
- 3 Family has experienced homelessness in the past six months.

10. Physical Condition of the Home

This item refers to the physical condition of the house or apartment in which the family is currently residing. Shelters would be rated "Not applicable".

- 0 No health or safety concerns on property.
- 1 Minor health concerns on property that pose no threat and easily correctable.
- 2 Serious substantiated health or safety hazards, i.e. over crowding, inoperative or unsafe water and utility hazards, vermin, or other health and sanitation concerns.
- 3 Substantiated life threatening health or safety hazards, i.e. living in condemned and/or structurally unsound residence; exposed wiring, potential fire/safety hazards, or vermin infestation.
- NA Not applicable

11. Home Maintenance

This item refers to housekeeping both in terms of cleanliness and organization and safety from dangerous materials and/or objects (e.g. child proofing). Families living in a supported housing arrangement (e.g. shelter) would be rated "Not applicable".

- 0 Home is clean, maintained well; poisons and medications are locked up/stored away properly and out of reach. Home is child proofed; kitchen and bathroom are functional; all utilities are operational; everyone has a bed and outlets are plugged. No concerns.
- 1 Most precautions have been taken; no danger to the children, poisons and medication are out of reach but not locked up; home is mostly child proof, utilities are operational; minor cleaning is required, some odor present.
- 2 Some precautions have been taken, but potential hazards are obvious, e.g. poisons and medication out of sight but within reach of child(ren), overloaded outlets, matches and knives accessible but out of sight. Gas, heating, electricity, or plumbing sometimes don't work because bills have not been paid or needed repairs have not been attended to by the family. Home is somewhat cluttered. House needs general cleaning, e.g. bathroom, bedrooms, kitchen, and basement. Beds are needed.
- 3 Home is not safe. Poisons and medications are visible and accessible, no screens on second floor windows for toddlers, outlets not plugged, few precautions taken; utilities off, due to neglect of bills or needed repair. No beds for children, parent(s). No refrigerator. Home is dirty, kitchen presents odor due to spoiled food.
- N/A Not applicable.

II. CAREGIVER'S STATUS

Each adult living in the family defined above who has any caregiver responsibilities would be rated separately in this section.

12. Caregiver's Emotional Responsiveness

This item refers to the caregiver's ability to understand and respond appropriately to the joys, sorrows, anxieties and other feelings of children.

- 0 Adaptive emotional responsiveness. Caregiver is emotionally empathic and attends to child's emotional needs.
- 1 Mostly adaptive emotional responsiveness. Caregiver is generally emotionally empathic and typically attends to child's emotional needs. However, certain psychological issues undermine the Caregiver's emotional responsiveness.
- 2 Limited adaptive emotional responsiveness. Caregiver is often not empathic and frequently is not able to attend to child's emotional needs.
- 3 Significant difficulties with emotional responsiveness. Caregiver is not empathic and rarely attends to the child's emotional needs.

13. Caregiver's Boundaries

This item refers to the caregiver's ability to maintain appropriate boundaries. This item may include physical separation, respecting privacy, and preventing children from being exposed to developmentally inappropriate information.

- 0 Adaptive boundaries. Caregiver has strong, appropriate boundaries between her/himself and her/his children.

- 1 Mostly adaptive boundaries. Caregiver has generally appropriate boundaries between her/himself and her/his children. Mild boundary violations may occur at times. Minor problems of rigidity of boundaries may occur.
- 2 Limited adaptive boundaries. Caregiver has problems maintaining appropriate boundaries between her/him and her/his children. Mild boundary violations may be routine or significant boundary violations may be occasional. Boundaries may be rigid.
- 3 Significant difficulties with boundaries. Caregiver has significant and consistent problems maintaining appropriate boundaries between her/himself and her/his children or is excessively rigid in her boundaries.

14. Caregiver's Involvement in Caregiving Functions

This item refers to the degree to which the caregiver is actively involved in being a parent/caregiver.

- 0 Caregiver is actively and fully involved in daily family life.
- 1 Caregiver is generally involved in daily family life. She/he may occasionally be less involved for brief periods of time because she/he is distracted by internal stressors and/or other external events or responsibilities.
- 2 Caregiver is involved in daily family life but only maintains minimal daily interactions for extended periods of time.
- 3 Caregiver is mostly uninvolved in daily family life. She/he may not interact with children on a daily basis.

15. Caregiver's Supervision

This item refers to the success with which the caregiver is able to monitor children in his/her care. This item should be rated consistent with the developmental needs of the children.

- 0 Good supervision. Caregiver demonstrates consistent ability to supervise her/his children according to their developmental needs.
